

Career gap year

Career gap year

I want to step out of the rat race for a while.

Taking a career break can be a rewarding experience, but it does require some planning.

If your goal is to take a gap year, sabbatical, extend your long service leave or manage a redundancy, we can help you prepare financially. We can work with you to:

- build a plan that looks at practical ways to help you make the most of your cash
- develop a savings plan
- help optimise a redundancy
- help you plan to meet your ongoing living costs, including any debt obligations, while you're not earning a salary.
